

Workplace Hygiene PPEs

- Long pants and closed toed shoes are required in the laboratory when working with chemicals OR if any chemicals are open on a lab bench
- Consult SOP on ethanol for PPE requirements
- When conducting tropical fieldwork:
 - Wear durable rubber boots to mitigate risk from snakes.
 - Wear long pants and long sleeved shirts during fieldwork to mitigate risk from biting insects.
- When conducting temperate fieldwork:
 - Wear closed toed shoes
 - Consider wearing long pants and long sleeved shirts to mitigate risk from biting insects.
